

## Emphysema and extra-pulmonary tissue loss in COPD: A *Multi Organ Loss of Tissue* phenotype

Supplementary material.

The table S1 below shows findings in females and males for the variables reported in table 1 in the manuscript for the whole population. The results are similar independent of gender. Subjects in the most severe emphysema group LAA>25% represent the MOLT phenotype in both genders.

Females	<b>Q1</b>	<b>Q2</b>	<b>Q3</b>	<b>Q4</b>
