

S6. ICM tracings

ICM tracings of CF infants (number 4 and 12) with relatively high responses to secretagogues, as compared with the typical ICM tracings of a homozygous F508del patient (infant 7).

- Original LabChart tracings of infant 4 (F508del/F508del)

- Original LabChart tracings of infant 12 (F508del/L927P)

- Original LabChart tracings of infant 7 (F508del/F508del)
