

Supplementary Figure 1. Proportions of co-infections among HRV, RSV, Inf A and AdV infections.

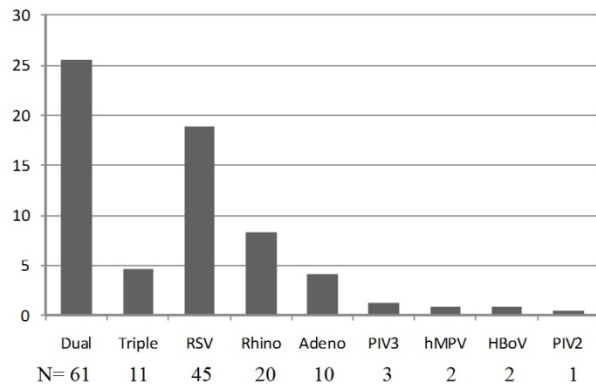

a. HRV

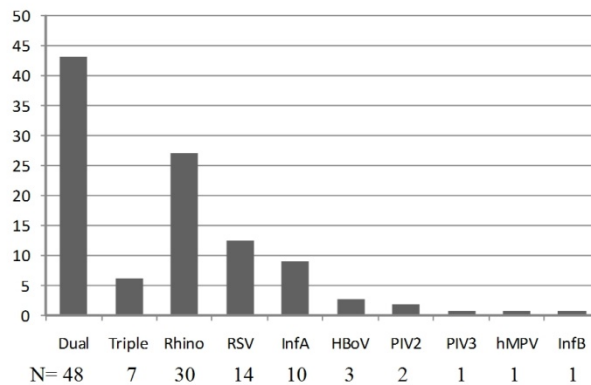

b. RSV

c. Inf A

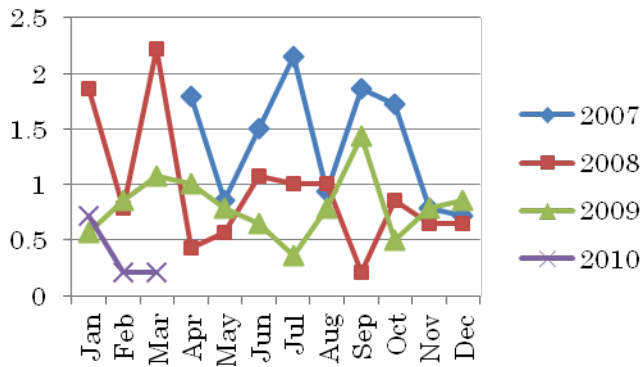

d. AdV

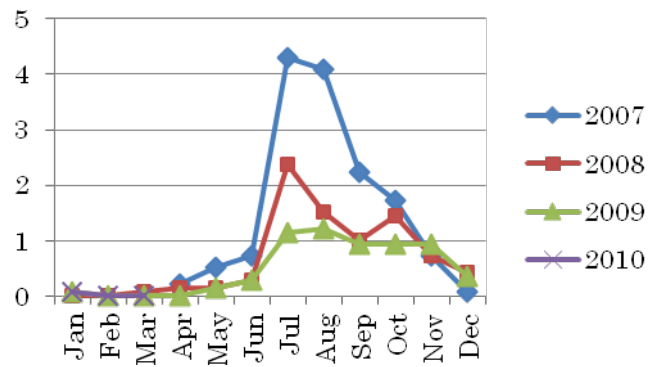

Note: x-axis shows the number of positive cases and the y-axis shows the proportion of total positive

Supplementary Figure 2. Incidence of each viral infection among children <5 years hospitalized with ARI (per 1,000 child-months), Khanh Hoa Province, Vietnam, 2007—2010.

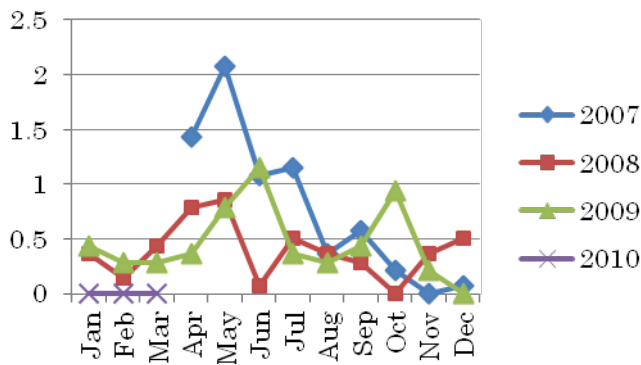

A. HRV

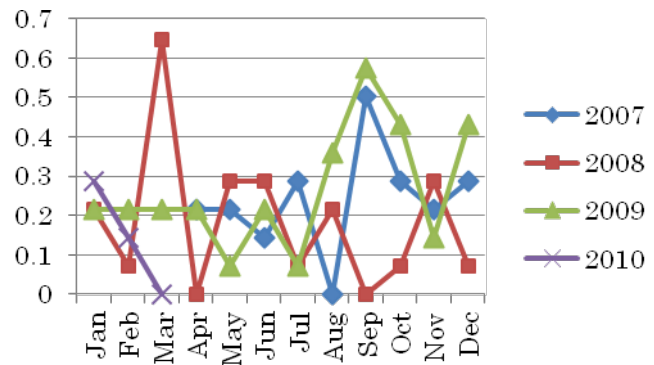

B. RSV

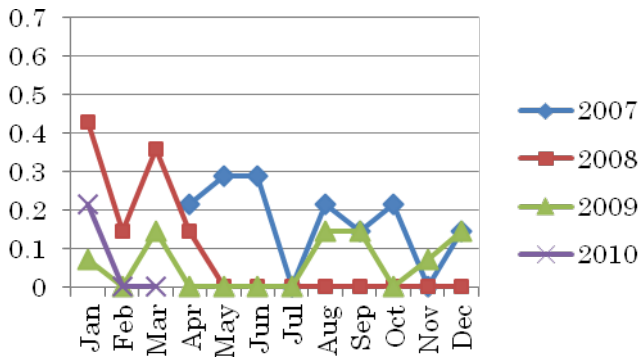

C. Influenza A

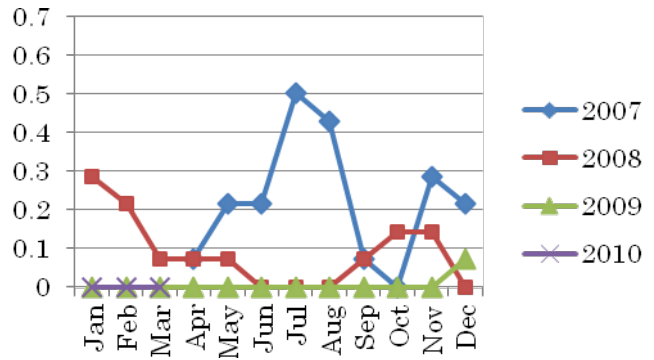

D. AdV

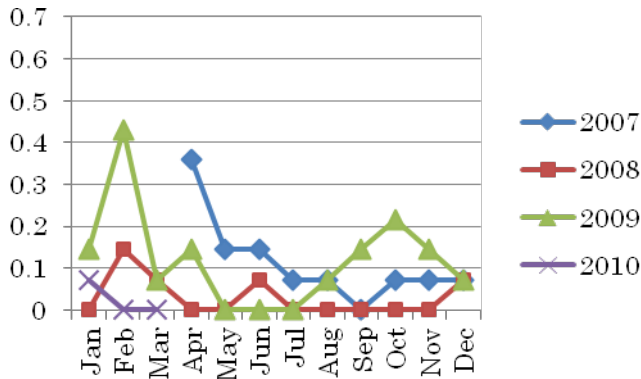

E. PIV3

F. HMPV

G. HBoV

H. Influenza B
