

Supplementary TABLE E1 The proportion of patients who met the definition of CS-dependent asthma or CS-independent asthma during the follow-up period

Year	CS-dependent asthma	CS-independent asthma
1	57.9	98.8
2	46.6	97.9
3	39.4	97.8
4	34.2	97.8
5	31.3	97.7
6	29.1	97.7
7	26.8	97.7
8	24.8	97.6
9	23.2	97.6

Data are presented as percentages. The proportion of patients who met the definition of each group was calculated, except for those who died in the previous year.
